

Andrii, a student from Kyiv,
dreamed of getting an internship in Europe.

He searched for a long time — and finally
discovered Europass: a résumé format
recognized all across Europe! 🌍

But **did it become the key to his dream?**
Find out in this inspiring story! 🚀

I dream so much of going
on an internship in Europe...
to see new things,
to discover more for myself!

This is too
difficult...

But how will they
understand my
education and
experience?

I have to try!

"The format is unclear."

«The documents do not meet the requirements»

Maybe I really don't have any chances...

So much effort — and again all for nothing...

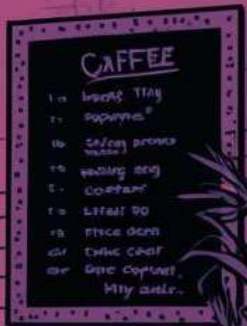

I made a Europass CV –
and I already have an
interview in Spain.

Europass opens
doors!

Great! I made
one too – I'm going
to Czechia!

Maybe
not everything is lost yet?
I'll try to create a résumé in the
Europass format!

Create a **Europass profile** and **CV**... a cover letter, a document library

Hmm... **Europass mobility** — sounds cool!

There's even a **digital skills test** with a certificate — interesting.

There are training and **internship programs** in Europe — just what I need!

Great, you can also **upload** diploma supplements and certificates.

.....SEVEN DAYS

LATER...

 Congratulations!
You've passed the first stage.
One-year internship in Berlin

I did it!
A whole year of internship
in Berlin — my dream has
come true!

europass

And it's all thanks
to **Europass**...

Co-funded by
the European Union

.....ONE YEAR

LATER.....

I'm back — with new knowledge and a big ambition ..

Now it's my turn to change the country))

FREE UKRAINE

My big journey began with a simple **Europass CV** — a journey toward new horizons and incredible achievements!

Don't hold back —
opportunities are
waiting for you!

Sign up on Europass —
and make your dreams
come true!
